

Alternate sources of coverage for LIBTAYO

LIBTAYO Surround is here for your patients

LIBTAYO Surround may be able to help find alternate funding sources for patients without insurance coverage or patients with inadequate insurance coverage for LIBTAYO who need assistance with out-of-pocket medication costs.

To assist your patient, a Reimbursement Specialist will:

Identify alternate coverage programs for which your patient may be eligible and **explain** the benefits they provide

Answer questions about the application process for each program

Provide your patient with the appropriate program's contact information

Supply your patient with a copy of the program's enrollment form (if available)

Potential alternate sources available for patients may include:

- Medicaid
- State health insurance exchanges
- Medigap
- State pharmaceutical assistance programs
- Independent charitable foundations

With the exception of independent charitable foundations, **once an alternate source is identified** and your patient applies for assistance, a LIBTAYO Surround Reimbursement Specialist may be able to follow up with the patient and/or your office staff about the status of the application and communicate the result

For more information, call 1-877-LIBTAYO (1-877-542-8296) Option 1, Monday–Friday, 8 AM–8 PM Eastern time

For any questions or concerns, or to report side effects with a Regeneron and Sanofi product for patients enrolled in LIBTAYO Surround, please contact LIBTAYO Surround at **1-877-LIBTAYO (1-877-542-8296) Option 1**, Monday–Friday, 8 AM–8 PM Eastern time.
